Subject: Lower Ley Creek - notification to SHPO of proposed Phase IA CRS work plan?

Flag: Follow up

Victoria,

We plan to get a head start on the Phase IA cultural resources survey (CRS) for the Lower Ley Creek subsite, but before we start we would appreciate an update on whether EPA has yet notified State Historic Preservation Officers (SHPO) of the work plan for the CRS. We have heard that the backlog for SHPO generating the Project Review Number (PR Number) is longer than normal due to COVID, so we would like to get on their radar as soon as possible with the information within the February Remedial Design Work Plan (RDWP). Although the Area of Potential Effect (APE) will change in the forthcoming revised RDWP, that amendment to the APE can be added to the file created for the PR Number established with the initial work plan information.

Let me know if you have any questions and/or if you have already received the PR Number so we can get started with next steps.

Thank you,
Lauren
